Difference between two best measurements of the course: 27 feet Certification code: MD90009JS

Be It Officially Noted That

Based on examination of data provided by the above named measurer, the course described above and in the map attached is hereby certified as reasonably accurate in measurement according to the standards adopted by the Road Running Technical Committee. If any changes are made to the course, this certification becomes void, and the course must then be recertified.

Validation of Course — In the event a National Open Record is set on this course, or at the discretion of TAC/USA, a validation remeasurement may be required to be performed by a member of the Road Running Technical Committee. Such a remeasurement must show the course to be **at least** the advertised race distance in order for the record to be accepted and certification to remain in effect.
