

9th ANNAPOLIS RUN RESULTS

Congratulations! You are one of the 1947 official finishers of the 9th Annapolis Run. We are sending you these results so that you might have a record of your achievement.

Many fine performances were turned in: The competition was especially fierce at the front of the pack, where both the first-place man and the first-place woman had to outkick their opponents after entering the Navy-Marine Corps Stadium. Cool temperatures allowed for faster times than '83 and several age-group course records were set, including 52-year-old Norman Green Jr.'s 54:15 and 13-year-old Jeff Campbell's 58:02.

Thanks are due to all our sponsors, especially Miller - Chesapeake Bay Distributors, First National Bank of Maryland, and Nike, whose long-standing, generous support made it possible to put on this race. Please feel free to write us or our sponsors with your assessment of the job we are doing; your suggestions are always welcomed.

As you look over these results, you'll notice that a division code is listed right after the order of finish. To find the age group that it applies to, look at the table of division winners below.
