**Team Divisions:** The team scoring is tabulated separately as a race within a race. Teams must have at least 5 members; the top 5 will determine the score. Teams may have a sixth member who will "displace" but not figure in the team's total score. The displaced points are shown in parenthesis.

-----

**Review:** A nearly perfect score for the Washington Running Club! Tidewater was able to nudge WRC's 5th place finisher to 9th overall, otherwise it was "no contest".

-----  
**Review:** If it wasn't for the fine performance by the third place GNATS masters, the Military District Washington team would have dethroned the favored Washington Running Club. As it was, only one place separated the WRC & MDW teams. WRC lacked the depth it has shown in previous years.

-----

**Results c/o Gerte Spadone, Joe Walsmith, Mike van Beuren, Kathy Bridges, Lloyd Ellen Thomas, and Sean Sweeney's crew of 75.**
